Metadata and Content Issues

- The online version was scanned from microfiche, which was of iffy quality, so there are significant problems with the OCR: if a keyword search isn't successful, use indexes instead
 - In particular, the OCR missed most instances of the letter “o”, so try without, e.g. international (6506 results) vs. internatinal (6936 results)
 - If you don't find what you're looking for, use the indexes
- If you can't find a particular issue or page, it may have been missed in the initial digitization: Ask Reference a Question
- If you can't find a particular item, it might be in another series or part of the Gazette: check the Canada Gazette Search Help page
