Overview

- 1) Setting the stage
- 2) *Operational Standard on Digital Archival Records' Metadata*
- 3) Finding aids and description of digital archival government records
- 4) Department of National Defence (DND) Records, Documents and Information Management System (RDIMS) digital transfer project
- 5) Wrap-up

Setting the Stage

- Protecting and managing GC digital archival records before transfer to LAC
- Transfer procedures and standards
- Finding aids and description after acquisition
- Preserving and making digital archival government records accessible

Credit: Library and Archives Canada, Acc. No. 1981-38-72

Operational Standard on Digital Archival Records' Metadata

DISCOVER. UNDERSTAND. CONNECT.

Library and Archives
Canada

Bibliothèque et Archives
Canada

Canada

Purpose

To identify the baseline of mandatory metadata for digital archival government records managed by Government of Canada institutions (GCIs) with valid disposition authorization (DA) coverage and destined for transfer to LAC.

Policy Relationships

Library and Archives Canada

- Transfer procedures
- File formats guidelines
- Operational standard for protecting digital archival records

Treasury Board Secretariat

- Service and Digital instruments
- Open Government directive
- Standard on Managing Metadata

GCI and LAC Activities

To be applied by IM, RK, and IT professionals in GCIs responsible for configuring recordkeeping infrastructure or systems and for doing records disposition.

To be evaluated by LAC archivists when triaging and processing incoming transfers of digital government archival records.

Metadata Requirements

Appendix C: 12 mandatory concepts

System-agnostic

Multiple formats

Applicable to items and aggregations

Summary of Requirements (1)

	Metadata Concept	Obligations
1	Classification Code	Mandatory where present for items Mandatory for aggregations
2	Creator	Mandatory where present for items Mandatory where present for aggregations Mandatory for transfers
3	Date/Time	Mandatory for items Mandatory where present for aggregations
4	Disposition Authorization	Mandatory where present for aggregations Mandatory for transfers
5	Extent	Mandatory for transfers
6	Format	Mandatory for items

Summary of Requirements (2)

	Metadata Concept	Obligations
7	Integrity	Mandatory for items (at transfer)
8	Language	Mandatory where present for items
9	Record Identifier	Mandatory for items Mandatory where present for aggregations
10	Rights Management	Mandatory where present for items Mandatory for aggregations
11	Technical Environment Information	Mandatory for aggregations
12	Title	Mandatory for items Mandatory where present for aggregations

Status and Next Steps

Standard was approved in November 2023

Confirm communication plan and release process

Scope and plan supplementary guidance

- For GCIs (upstream and at transfer)
- For LAC staff (triaging transfers)

Finding Aids and Description of Digital Archival Records

LAC's DAMS: What It Is

- LAC's **Digital Asset Management System (DAMS)** is a suite of tools to improve the efficiency of digital acquisitions, processing, preservation, and access functions.
- The DAMS specifically addresses the dual challenge of **limited human resources** for processing and **a significant increase in digital records**.
- Current pilot project: first attempt to **process archival government records** in the DAMS.

Background: DND Records

- Digital records acquired from DND's Vice Chief of Defence Staff in 2022
- 1st transfer from DND of records managed in RDIMS
- Healthy metadata
- Records processed to minimal level of description

Background: DND Digital Records

Record Information – Details

Date(s): 2007-2011.

Place of creation: Canada

Extent: 459 MB of textual records (735 documents)

Language of material: English

Finding aid: Show detail

Additional information: Hide detail

General Note:

This accession consists of records created and/or maintained by the Director Defence Security (DSS), a unit under the Vice Chief of the Defence Staff (VCDS). The records are arranged according to the DND/CF subject file classification system. The accession includes electronic records acquired out of an electronic document and records management system (EDRMS) under file primary 3122 - PLANS, OPERATIONS AND READINESS - PLANS AND READINESS - DEFENCE PLANS - BUSINESS CONTINUITY PLANNING. Documents include presentations to senior management, electronic correspondence, project planning documents.

Source: Government

What's Been Done So Far?

- Arrangement & description
 - Leveraging metadata to create file-level descriptions/finding aids
- Records ingested into DAMS
 - Folder hierarchy created to match arrangement structure in our catalogue
 - Reformatting metadata into XML files (using MODS templates)

Next Steps

- How will DAMS connect with Collections Search?
- How will we serve files (i.e. aggregates) up to clients?
- Future pilot projects
 - Closed records?
 - Direct transfers?
 - Non-textual records?

Wrap-up
